

## An eye on your business delivered via cell phone or internet to anywhere in the world that you are.

Maximum success of your business requires that you need to be on top of things at every moment. How do you keep an eye on your business when you can't be everywhere at once?

Carzo & Associates, Inc. (CAI) can provide the necessary revolutionary remote system that lets you view live video of what's happening in your business at anytime from anywhere. You will always have the peace of mind of knowing what's going on.

Works with Vista, XP, Mac OS, Unix and Linux, as well as any internet capable cellphone, including iPhones, Razrs, LG, Androids and others.

### **All you need is a PC or a smart phone.**

CAI will provide all the equipment, knowledge base and training you require. From the convenience of your PC or your smart phone you can view live video over the Internet anytime you like. If you don't have time to watch live video, you can review archived video at any time that is convenient for you.

Employee/facility video surveillance is a must in any business. Now you can see for yourself what's happening in your operation when you're away. When you turn on your camera video surveillance, employees are more likely to give you their very best, and that can be good for everyone in your business or it may be a matter of an alarm at 3:00 am and you/employee are and hour's drive away.

- Monitor employee safety and sanitary procedures in restaurants.
- Monitor employee performance patterns.
- Monitor teacher/class performance.
- Monitor site activity (disaster damage, prison activity, site hot spots).
- Monitor product safety/environmental conditions.
- Monitor valuable equipment at construction sites.
- Monitor activities at agricultural sites.

### **All recorded video**

- **Is time and date stamped, essential for use as evidence.**
- **Can be emailed to you on a schedule.**
- **Provides security which reduces crime just by the presence of cameras. Clients/customers and employees alike appreciate a safe environment.**
- **Can be set to perform guard tours as backup for present security measures.**
- **Can be integrated with any alarm system.**
- **Monitor environmental changes, power failures, intruder alarms.**

### **Professional CCTV Systems by Engineering Professionals**
